

What's New in Moodle 3.2.2

The Moodle upgrade will take place on Monday 3rd July. This document highlights some of the key new features and explains some of the more significant changes to the Moodle interface.

If you have further questions please contact dlsupport@arts.ac.uk

Plugins no longer Supported:

- **Booking** activity will no longer be available to use in the upgraded version of Moodle.
- **Subpage** resource will still be active due to courses still using this feature but will be phased out and turned off in 2019/20

New Features

Highlights

- [User Tours](#) – These are step-by-step guides to various areas of Moodle. You may use an existing tour, or create anew one. Please see https://docs.moodle.org/32/en/User_tours for more information.
- [Improved Media player](#) making video and audio more accessible, usable and customisable with options to add thumbnails, captions and subtitles.
- [Improved messaging and notifications](#) that make it easier to access, send, and manage your preferences.

Lesson Activity

Duplicate page option for use within the Lesson Activity.

Before

The screenshot shows the Moodle Lesson Activity interface. At the top, it says "Introduction to Moodle". Below that, there's a "Test Lesson" section with tabs for "Preview", "Edit", "Reports", and "Grade essays". Underneath, there are "Collapsed" and "Expanded" buttons. A table lists the lesson pages:

Page title	Page type	Jumps	Actions
The importance of context	Essay	Next page	[Icons: Home, Back, Forward, Search, X] Add a new page...

After

The screenshot shows the Moodle Lesson Activity interface after a change. A red arrow points to a new icon in the "Actions" column of the table, which is a duplicate icon (two overlapping pages). A text box above the arrow says "Duplicate icon to allow page duplicates".

Page title	Page type	Jumps	Actions
The importance of context	Essay	Next page	[Icons: Home, Back, Duplicate, Forward, Search, X] Add a new page...
